

# If you need to keep going for longer

## Rely on the Samsung N140

With the **Samsung N140** netbook you not only get all day computing, but most of the night too.

One 6 cell battery can deliver an incredible 10 hours\* plus of battery powered performance and because it weighs just 1.27kg you're always ready to go anywhere and do anything. With the N140's elegant slimline design, unique colours and sensuous styling the N140 looks good while you're on the move. Incorporating an extensive array of the latest wireless communications technology and data sharing capabilities to keep you in touch you don't have to sacrifice performance for portability. With a 10.1" LED LCD with a proper aspect ratio it also delivers brilliantly clear images and high resolution movies and for an enhanced multimedia experience the integrated 3 Watt stereo speakers provide rich High Definition audio, so it sounds as good as it looks.

### Intel® Atom™ processor

Based on an entirely new micro-architecture, the Intel® Atom™ processor increases energy efficiency to extend battery life, whilst delivering enhanced mobile performance and increased system responsiveness on netbook devices.

### Longer lasting battery life

Set yourself free with the N140's extended battery life. It delivers over 10 hours\* of power to keep you going all day long. This exceptional performance is guaranteed by the energy efficient XD LCD display, optimized processing performance and Samsung's class-leading engineering. So you're always ready to go anywhere and do anything.

\* Battery life based on BatteryMark test scores that will vary based on configuration.

### Carry less - do more

Be careful, the N140 is so light you may forget you're carrying it! As the lightest in its class, weighing just 1.25 kg, the N140's ultra lightweight design provides maximum portability. But it still incorporates comprehensive functionality for maximum performance on the move. So you can carry less, but do more.

### Better by design

The N140's class leading design lets you do even more on the move – and be part of the Samsung "tribe". The superb look and feel of its slim and elegant chassis is accentuated with unique colors and haptic styling which is mirrored by the high quality of its components and materials.
