

Windows®. Life without Walls™. Samsung recommends Windows 7.

If you appreciate great value and style, rely on the Samsung R730.

the Samsung R730.

The R730 is a powerful, yet affordable style leader. It offers great all-round value by combining outstanding quality and performance in an ultra-stylish "New Touch of Colour" red diamond and metallic hairline finish. The ergonomic design is built to the highest quality standards with craftsmanship which delivers exceptional haptics for a more enjoyable and productive user experience. To protect against wear and tear, a robust, scratch resistant Samsung durable casing is specially designed to prevent finger marks and cope with everyday bumps and knocks. Anyone who enjoys movies and HD video content will appreciate the enhanced visual quality of the pure 16:9 aspect ratio LED display. The R730 also provides enhanced usability with a 17-key numeric keypad that is the same as a desktop.

The R730 is ideal if you want to get things done in style.

Designed for great value

The R730 is a powerful, yet affordable style leader. Offering great all-round value by combining outstanding quality and performance in an ultra-stylish design, the R730 delivers a more enjoyable and productive user experience.

Class leading craftsmanship

Life on the move can be challenging. But the R730 won't let you down. Its ergonomic and stylish design is built to the highest quality standards and craftsmanship. And to reduce the risk of scratches its robust, scratch-resistant Samsung durable casing is designed to prevent finger marks and more than capable of withstanding everyday bumps and knocks.

Easy-to-use numeric keypad

To get more out of life you need the right tools. The R730 bridges the gap between mobility and performance by incorporating a 17-key numeric keypad. Its enhanced usability means you can easily type numbers, do calculations or use it for gaming activities.

See the bigger picture in HD

When you're moving fast it's easy to miss out on the detail. So the R730's 17.3" HD LED display provides the sharpest images and boldest colours. Its proper 16:9 aspect ratio also ensures the most accurate representation of HD movies and games. So you can always enjoy the bigger picture, without annoying black bands.
